SCHEME OF CATALOGUES

The Descriptive Catalogue of ISLAMIC MANUSCRIPTS in this Library has been completed in FOUR volumes of which the last one is still in the press. Though the printing of the fourth volume has been completed, the various indices etc., are under preparation and it is hoped to issue it in the course of the next three months. In these Descriptive Catalogues, the following information about each manuscript is given :

1. Number of pages and Number of lines on a page.
2. Condition of the manuscript.
3. Mode of writing.
4. Subject matter.
5. Extent and
6. Author.

Brief remarks about the contents of the manuscripts and extracts from their beginning and end are also given to facilitate the scholars doing research work. In each volume the manuscripts in Urdu, Persian and Arabic are described separately and continuous numbers for each language have been given in all the four volumes. The names of the works in column 3 on each page are arranged in alphabetical order to facilitate easy reference.

II

An extract from the introduction of the Alphabetical Index of Sanskrit manuscripts of this library giving a brief history of the origin of this library by the late P. P. Subrahmanya Sastri, Curator of the Library is given below :

From 1800 to 1850 A. D., several manuscript collections like the Mackenzie, East India House, Brown, etc., were paid for by the Court of Directors of the East India Company, London, and transferred to their Madras Agent for preservation.

MACKENZIE COLLECTION

Colonel Colin Mackenzie came to India in 1782 as a cadet of Engineers on the Madras Establishment of the East India Company, desirous of prosecuting in India his oriental researches which had already become his hobby when entrusted with the searching for and gathering together of all available information respecting the knowledge possessed by the Hindus of Mathematics in general, and of the nature and use of Logarithms in particular, by the 5th Lord of Morchistoun, who was eager to write a life of his ancestor, John Napier, the inventor of English Logarithms.

From 1782 to 1818 the Colonel collected various collections of manuscripts, coins, inscriptions, maps and plans bearing on the literature, religion, history and manners and customs of the people in South India in as many of the alphabets as were current in the south, besides numerous additions from Ceylon and Java.

In 1818, before proceeding to Calcutta to take up his new duties as Surveyor-General of India, he appears to have sent home to England, presumably to the Court of Directors of the East India Company, seven folio volumes of materials relating to the geography and history of the country with general and provincial maps. Colonel Mackenzie took his collections to Calcutta and added to them and worked at them till his death in 1821. With the sanction of the Court of Directors, the Marquis of Hastings, then Governor-General of India, purchased the Collection on behalf of the East India Company from the widow of the deceased for £ 10,000. The collection which was in no fewer than fourteen languages and sixteen different characters was catalogued by Wilson when at Calcutta. A portion of this collection as well as several volumes of manuscript translations were sent to England in three batches in 1823, 1825 and on a subsequent date. The whole of the books and tracts in the languages of southern India and the inscriptions were lodged in the Madras College Library in 1828. From 1830, the collection was in the hands of the Madras Literary Society. In 1847 it was retransferred to the "College Library." About 1838, the Rev. William Taylor prepared, under the orders of the Government of Madras and with the sanction of the Court of Directors of the East India Company, a catalogue of the Mackenzie collection which formed the third volume of "A Catalogue Raisonnee of oriental manuscripts in the Library of the College, Fort St. George, in charge of the Board of Examiners."

The Mackenzie collection is now in three different places, one at Madras and the other two at Calcutta and the Library attached to the India Office.

THE EAST INDIA HOUSE COLLECTION

About 1837, Mr. C. P. Brown of the Madras Civil Service found in the India House Library a collection of manuscripts in Tamil, Telugu and Kanarese characters belonging to Dr. Leyden who was in India from 1803 to 1811. Dr. Leyden was a great traveller and linguist. His collection was bought at his death by the Company and lodged at the India House. The collection was transferred to the Madras Literary Society in 1844 and Mr. Brown's lists of the collection appeared in No. 33 of the Journal of the Literary Society in 1847. In 1847 it was retransferred to its permanent home, the College Library at Madras.

BROWN'S COLLECTION

On completing the cataloguing of the East India House Collection Mr. Brown donated to the company his own valuable collectoins of manuscripts which is almost entirely in Telugu character, one half of the collection being in Sanskrit, and the other half in Telugu. To this collection, Mr. Brown was continually making additions up to the date of his departure to England in 1855.

With the consent of the Honourable Court of the East India Company, the Government appointed Mr. W. Taylor, a distinguished orientalist in 1853 to publish a Catalogue Raisonnee of the Contents of the East India House and Brown's collections similar in character to Professor Wilson's catalogue of the Mackenzie manuscripts. Between 1857 and 1860, Taylor published his "Catalogue Raisonnee" in three volumes, noticing all the manuscripts, which were then lodged in the Board's Library.

The manuscripts belonging to the three collections were transferred in 1869 to the charge of Mr. Pickford, then Professor of Sanskrit in the Presidency College, who was directed to look after the manuscripts, and to prepare a catalogue of them, to facilitate their identification and their accessibility to the public. The Professor of Sanskrit thus became the Librarian of this institution. In 1875 he became the Curator of this library. He was then called upon to prepare, for publication, important literary and historical manuscripts; and in 1876 in accordance with the orders of the Government of India, he was required to discover new manuscripts in the Presidency, and to purchase them or acquire them by transcription. In pursuance of these orders many manuscripts have been acquired from time to time, and added to the individual collections of manuscripts already in the Library.

From such small beginnings, the Library has now grown to its present dimensions. The Library now possesses manuscripts and printed books in the several languages of South India as detailed below :

Waqā'e-e-Amir-al-Umara

A biographical narrative of Nawab Amir-al-Umara, the son of Muhammed Ali Khan Walajah the Nawab of carnatic.

There are a few inscriptions in Persian recorded by the late Colonel Collins Mackenzie. They have not as yet been described. A separate volume containing the description of them is under preparation and it will be taken up for publication shortly.

The Government of India have generously come forward with financial grant for the preparation and printing of a Catalogue in Persian and Arabic manuscripts in this library with a number of details briefly indicated. Extracts of beginning and end of some of the rare manuscripts were also required to be given by the Government of India as an appendix in G. O. No. F. 80—12—59—C2 dated 27-7-59 of the Ministry of Education, Government of India, communicated in No. 111490-59-E-5-2-Edn. D. 14-8-59 of the Government of Madras. The preparation and printing of such a catalogue was sanctioned to serve the need of scholars in Persian and Arabic throughout the world. The entire cost for this enterprise is borne by the Government of India for which the scholars of Islamic Languages are deeply indebted to them.

The compilation of the slips for each manuscript was made by Janab Moulvi Syed Hamza Husain Omari, Munshi of this Library. As the entire work had to be completed within a limited time, certain amount of haste on the part of the Pandit has given room to a few errors both while compiling the slips and printing the catalogue. A fairly exhaustive errata has been carefully prepared and added to this volume.

Extracts from a few rare manuscripts have been included in appendix IV. The selection of these rare manuscripts was done by Janab Moulvi Md. Yusuf Kokan, Omari, M. A., Reader, University of Madras and proofs also were corrected by him. My thanks are due to him for the kind services rendered by him.

The Bharathi Vijayam Press, where the catalogue proper in English was printed and the Madina Press where the extracts of manuscripts were printed have also to be thanked for the way in which they executed the work entrusted to them in a remarkably short time.
